

# ACOUSTICAL SOLUTIONS FOR THE HOME OFFICE

Help diffuse and soften sound in the home office and workplace.  
New to our offering are desktop and standing acoustical partitions.

## immerse™

9MM ACOUSTIC FELT

Immerse™ is a sound-absorbing, 9mm thick rigid felt material designed to absorb sound.

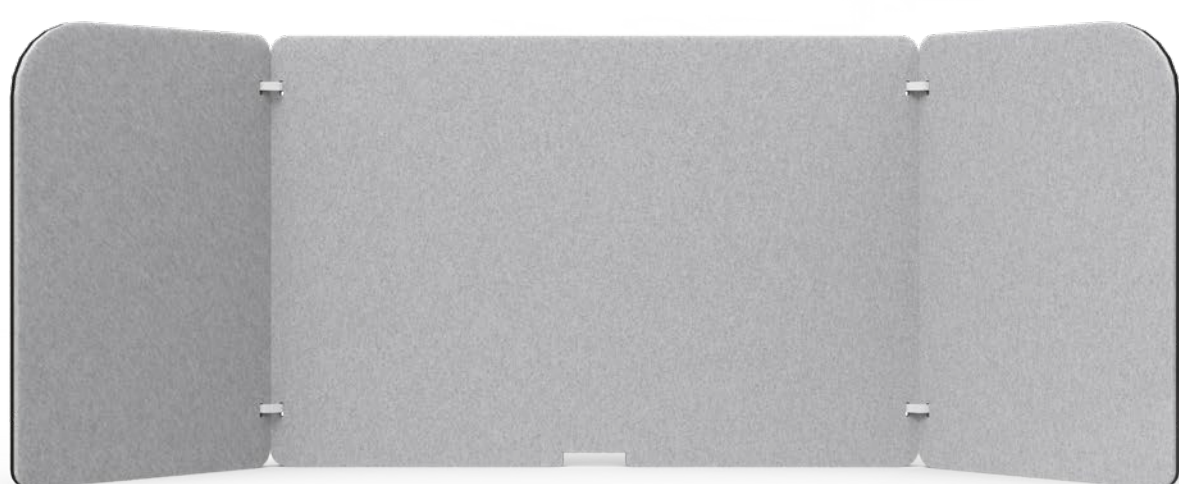

The Immerse line of acoustical partitions places emphasis on softening sound to enhance the acoustics within a space, whether it be for the home or corporate office. Through noise absorbing material and specific design features, excess sound is captured by Immerse, creating an acoustically comfortable environment that provides stillness and promotes peace of mind and well-being.

## PARTITIONS

**ACOUSTIC TRIFOLD SMALL**

**ACOUSTIC TRIFOLD MEDIUM**

**ACOUSTIC TRIFOLD LARGE**

Immerse™ is a sound-absorbing rigid felt material designed to quiet a space in style. It is an environmentally sustainable material, which contains a minimum blend of 50% post-consumer waste sourced from recycled PET bottles. The material production process itself generates no waste. This functional material dampens sound and controls unwanted noise in open spaces, greatly reducing excess noise in the mid-to-high frequency range.

The sound-absorbing material is available in a range of standard colors, standard images and can be custom printed.

OPTIONS

Unprinted:

Choose a stock color for the front & back.

Single Sided Print:

Choose a stock color for one side & a stock print  
OR custom art for the other side.

Double Sided Print:

Choose stock prints for both sides OR submit custom  
printed artwork OR mix & match.

Our print capabilities are unmatched. We use state-of-the-art latex print technology to digitally print onto the Immerse™ material. This technology offers vibrant output, excellent resolution and displays the artwork of your choice, all while retaining the sound absorption qualities of the Immerse material.
