

MAGNETIC MODULATE

Mix & Match

Modulate® is a magnetic, tension fabric banner system that enables you to combine frames into different configurations, creating displays unique to your changing needs!

The Modulate system enables mix & match to support various configurations, is lightweight and minimizes drayage and material handling costs. We offer pre-built, reconfigurable kits as well as individual banners, doors and half walls to choose from. Learn more about the benefits of Modulate and start designing today.
