

# Backlit Square 1203 - Hanging

The Formulate® Backlit Square Hanging Structure 1203 is a great addition to enhance branding and messaging. It is durable and is designed to be used either in permanent environments or over and over for events and tradeshows. Simply stretch the double-sided pillowcase fabric over the light aluminum tube structure. An LED light hangs in the center of the 12' wide by 3' tall frame and enhances graphics with the perfect brightness and minimal shadow.

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications

## features and benefits:

- 12'W 12'L x 3'H
- Constructed with 30mm (1 1/8") tubes and push-button connectors for simple assembly
- LED lighting is suspended in the middle of the structure
- Engineer certified (structural engineer certificate available upon request)
- Zipper pillowcase fabric graphic with bottom panel
- Comes with hanging cables
- Collapses to a fraction of its size and easy to store & ship
- Comes in a box or case
