Additional graphics information can be found on the **Graphics** page in the top navigation.

Graphics

The Orbus Exhibit & Display Group graphics department produces over 4,500 sq. ft. of graphics per hour thanks to a full-service customer satisfaction team, talented art staff and around the clock production crew. Our fleet of 18 state-of-the-art printers are equipped for speed and quality to meet the most demanding deadlines. Printing on more than 15 materials, we can produce a range of graphics to meet almost any need.

Artwork

The art department requires 24 hours to pre-flight and proof once the order has been submitted. Large orders may take up to 48 hours to pre-flight due to quantity and file size. Electronic proofs are sent for all graphic jobs. Hard copy proofs are sent upon request with an additional charge.

[Download Artwork Guidelines/Turnaround Times](#)

[Download Graphic Print Materials](#)

Print Capabilities

UV Printing: With four state-of-the-art UV printers, we provide vibrant graphics with excellent longevity on a variety of rigid and flexible substrates such as multiple extruded, wood, and textured surfaces.

Inkjet Printing: Our high-resolution inkjet printers have excellent color and quality output. Unlike UV printed graphics, all Aqueous Inkjet graphics must be laminated to protect the graphics from damage and scratches.

JETI 1224

AQUA JET 3324

Digital Cutter: Utilizing two ZUND digital cutters, we create fast and efficient workflows for finishing graphics. Our equipment has the capability of cutting a wide variety of graphics from basic mural panels to custom contour shaped graphics to 2" in thickness.

Solvent Printing: Our three high-speed solvent printers have the capacity to print 1,500 sq. ft. per hour. The solvent printing process employs durable and vibrant inks that promote strong adhesion and excellent longevity.

Dye-Sublimation Printing: With eight cutting-edge fabric printers, we have the ability to print a remarkable 2,000 sq. ft. per hour. This high-speed process produces vibrant, six-color output to 3 meters wide. All dye-sublimated fabric graphics are finished to maintain shape and quality.

Print Materials

Our print materials include, but are not limited to: Satin, Scrim, Flatmaxx, Sheer, Flag, Opaque PVC, Static Cling, Power Stretch, Oxford, Display Poly, Soft Knit, Opaque Inkjet, Translucent PVC, and Melinex.

G7 Specification

The graphics we provide are G7 certified which helps ensure the production of the highest quality, consistent and accurate color graphics. G7 specifies the components of an image that define a similar "visual appearance" to the human eye.

Graphic Only Orders

We've organized the **Coyote pop-up section** to make it easy for you to find what you need:

The **Coyote pop-up** section is broken into three parts:

- Coyote Fast Kits
- Coyote a la Carte
- Coyote Accessories & Replacement Parts

From there, the **Coyote Fast Kits** are broken down into three parts:

- Frame Kits
- Fabric Kits
- Graphic Kits

Kits include case and lights. Nothing in the kits can be substituted for anything else. For example, if a kit comes with Lumina 200 lights and you want to purchase Lumina 1 lights, you will need to use the a la carte section. If you want a frame with no case or lights, you will need to use the a la carte section.

Coyote Pop-Up Orders

Coyote Fast Kits

Coyote A La Carte allows you to order pop-ups exactly the way you want to. Here you can order anything: frame only, frame with case, graphic panels, fabric panels, etc.

You will also use this area to order Coyote graphic/fabric panels only. Just as you would any other product, click the graphic/fabric panel name and you will be taken to a page where you can order the graphic/fabric panel only.

Important Notice: Credit Card fraud is a felony and anyone found attempting to misuse a credit card number will be prosecuted. We track every transaction and will use all means available to prosecute persons attempting fraud.

Ignify ECommerce uses industry standard 128-bit encryption for transmitting your credit card details.

You can verify our certificate by double-clicking on the lock icon displayed in your browser window. The lock icon might be available in status bar at the bottom of the browser or next to address bar.

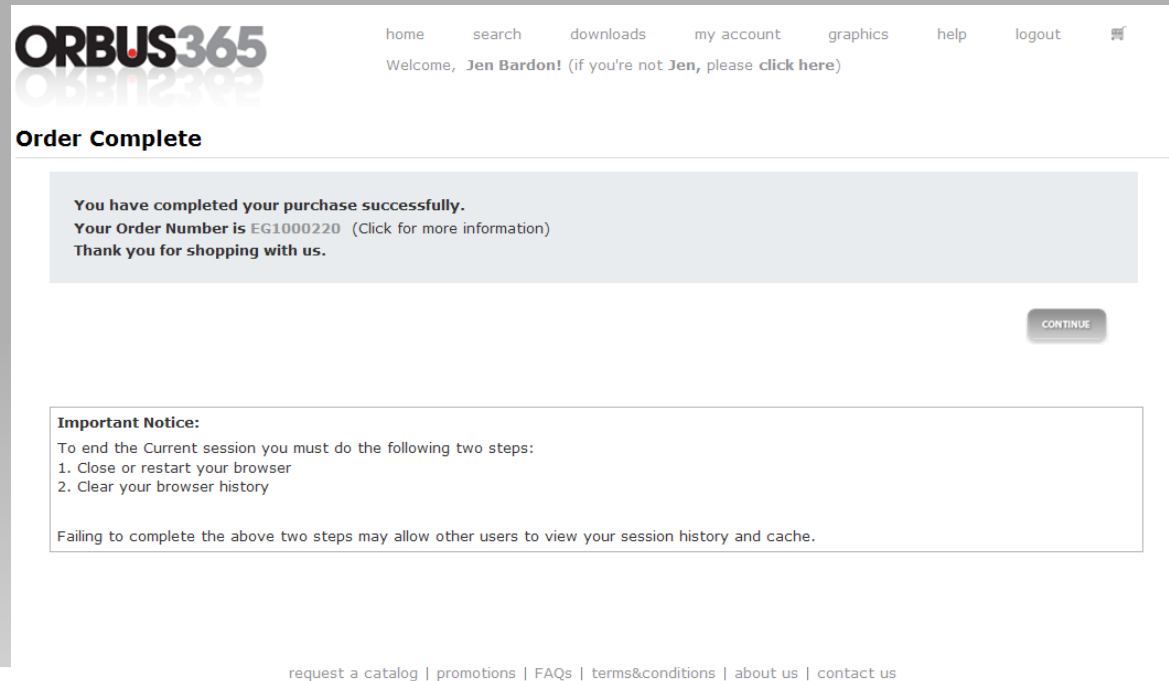

Checkout - Payment

You're done!

Order confirmation:

- displays your order number
- look in your "my account" section to view order
- you will receive a confirmation from Shop.Orbus365.com letting you know the order is being processed
- you will then receive an invoice with the final details and cost

The site is a secure, quick and convenient way for you to place orders but remember, your Orbus representative is always available to answer any questions you may have.

The screenshot shows the Orbus365 website's order confirmation page. At the top, the Orbus365 logo is on the left, and a navigation menu with links for home, search, downloads, my account, graphics, help, and logout is on the right. Below the navigation, a welcome message reads "Welcome, Jen Bardon! (if you're not Jen, please click here)". The main heading is "Order Complete". A light blue box contains the message: "You have completed your purchase successfully. Your Order Number is EG1000220 (Click for more information) Thank you for shopping with us." Below this is a "CONTINUE" button. A white box with a border contains an "Important Notice:" section, stating: "To end the Current session you must do the following two steps: 1. Close or restart your browser 2. Clear your browser history". Below the notice, it says: "Failing to complete the above two steps may allow other users to view your session history and cache." At the bottom of the page, there is a footer with links: "request a catalog | promotions | FAQs | terms&conditions | about us | contact us".

Checkout - Confirmation

Additional policy and procedure information can be found on the “help” page in the top navigation.
